SERVICE INFORMATION LETTER SIL2228472 NO. 1

April 11, 2007

ATTENTION: Operators of Miltope Model TP-4085, TP-4185 Thermal Printer, Miltope Part Numbers 468300-11, -12, -21, -22 (Teledyne Controls P/N 2228472-1, -2, -3, and -4).

SUBJECT: Obsolescence of Miltope Model TP-4085, TP-4185 Thermal Printer

REFERENCE: VT Miltope Service Letter ILS-SL-05-014

Miltope Corporation has issued a Service Letter to all owners of Model TP-4085, -TP4185 thermal printer part numbers 468300-11, -12 (Teledyne Controls part numbers 2228472-1, -2) to advise that these printers are obsolete and no longer supported. In addition, printer part numbers 468300-21, -22 (Teledyne Controls part numbers 2228472-3 and -4) are also obsolete but still repairable through March 2008.

Boeing has researched the problem and has determined that the following may be used as replacement printers for the obsolete single port Miltope printers:

Datametrics P/N 109500-10X series
Matsushita P/N RD-AC1202 series

For Airbus A300/A310 family, the Datametrics or Matsuchita printer could replace the Miltope printer depending on A/C configuration. Operators should contact Airbus through the Request For Change channel.

Each series has printers with gray and brown panels.
